BRADBURY[®]

Lifting Britain Since 1896

H2603G Bradbury 6 Tonne Two Post Lift

**Ideal for
LWB
Vehicles**

185mm high lift pad adaptors
included as standard

The H2603G Bradbury twin-ram two post lift is fully baseless with an overhead gantry making this lift ideal for moving transmission jacks and oil drainers beneath the vehicle being lifted.

With a low pad height of just 122mm, this lift is suitable for most makes and models of cars up to LWB vans.

Gantry height of 4256mm (drive under clearance)

- **6 tonne lifting capacity**
- **122mm – 215mm minimum height (pad)**
- **1872mm – 1965mm maximum lifting height**
- **Electro-hydraulic operation**
- **60 seconds lifting and lowering time**
- **981mm / 1811mm front arm length min-max**
- **981mm / 1811mm rear arm length min-max**
- **2.2kW motor size**
- **3 phase**
